

## *delicious red*

---

**A band between extremes; DELICIOUS RED create a wall of sound which plants a dirty smile even on the face of the guy far back in the rear. Within melodic and hard screaming parts, finds good ol' hardcore and extremely emotional modern rock.**

Originally the band was founded in 1996 and as then named "Deadly Medley" played many gigs in the Austrian underground scene, selling out on copies of their EP "Color my world" in 2000 and the debut album "Perfect 10" in 2003. Following the release of their debut album they performed support slots for bands like Prong, Pitchshifter and Spineshank.

Since having changed their name to DELICIOUS RED, these 4 lads, together with their long-time friend and Producer NIKO, began working on a new record in BIRTHMARK STUDIO in 2006. During the recordings it soon became evident that the sound and vibe since the last album had strongly developed and that something really new and unheard was happening. Taking it one step further the band decided to find a new name that would describe this new magic. A name, hard and uncompromising, sexy and erotic, that leaves room for individual interpretation from the listener – just as the music from "DELICIOUS RED" does.

The guys continued working on their album "last chance blvd." and created music that stands out from traditional concepts, is yet "hooky" enough to burn quickly into the mind of the listener. Delivering constant tension between mellow and rough emotional energy, the music tells its own story, offering only few instructions and absolutely no boundaries! Just the way it should be...
